Vendor A

_____ has a partner provider, SentryMD, for whom we have performed the needed student immunization and records portion of your request. Will you accept this partnership for this RFQ or will _____ be disqualified?

This is acceptable as long as both providers are integrated into 1 system for the student and URI to view the results. We do not want to have to view 2 separate systems.

Vendor B

- 1.) Are vendors permitted to attach a cost sheet with package recommendations and à la carte suggestions they believe will benefit the University of Rhode Island, in addition to those services required in the RFQ?

Yes

- 2.) There may be additional fees associated with state, county and international searches that vary by jurisdiction. Are vendors permitted to include additional documents that detail additional fees for state, county and country court costs, when applicable?

Yes – although we want specific costs for those services requested

- 3.) Which programs within health sciences will require the services requested in this RFQ?

Pharmacy and nursing, although this may be expanded in the future

- 4.) Will all programs require the same set of services, and should these services be priced the same across all programs?

No – each college may have specific services, but yes the price should be the same.

- 5.) Please clarify if the University of Rhode Island requires vendors to submit a certificate of insurance with their response, or if a certificate of insurance is required only after a vendor is awarded the contract.

Certificate of Insurance is required after a vendor is awarded the contract.
